MARINE  
MINIATURES

**1:72**

**VESSEL Company is producer of two modeller brands: Shipyard since 1985 and Railway Miniatures since 2016.**

**Family Company was founded in 1985 by Lidia and Krzysztof Klyzynski and has developed to many directions of modeling to present day.**

**Shipyard brand is focused on marine models like sailing ships, lighthouses, dockyard dioramas and accessories.**

**From wide range of Shipyard products can choose:**

**Laser-Cut kits - complete box with all parts cut by laser, materials and accessories which modeller need to build a perfect model.**

**Marine Fittings - more than 50 different types and sizes of blocks and cotton ropes produced by a Dutch Company with traditions since 1638 year.**

**Traditional paper models - high quality printed parts with additional laser-cut spare parts like masts, sails and blocks.**

**Quality and precision of our models is based on our long experience in the modelling field.**

**Confirmation of it we receive directly from modellers which visit us on fairs where we show our products and models.**

**Railway Miniatures brand is focused on world of trains where You can find models of houses, buildings, sheds, cranes, lighthouses, road plates, pavements, concrete fences, kerbs, paths, pavings, gates and garden accessories.**

**All products are laser-cut kits and sets. Laser technology allows modellers to build models in perfect quality with all details.**

**We will be happy if You will trust us and give us opportunity to satisfy You with our models and kits - hobby is our passion.**

**LASER-CUT KIT - PAPEGOJAN**

## SHIPYARD LASER-CUT KITS

It is our most technologically advanced product. In the box you will find everything that is necessary in order to build your sailing ship model. All parts are cut out by a laser plotter. The real surprise is for our customers is hull planking - fully contoured, ready to be glued after being formed carefully - Krzysztof Kłyszynski's project. It is a new solution used for the first time in the building of sailing ship models. Another revolution are blocks created according to Bartosz Kłyszynski's project. This design allows to use a variety of blocks found on real sailing ships.

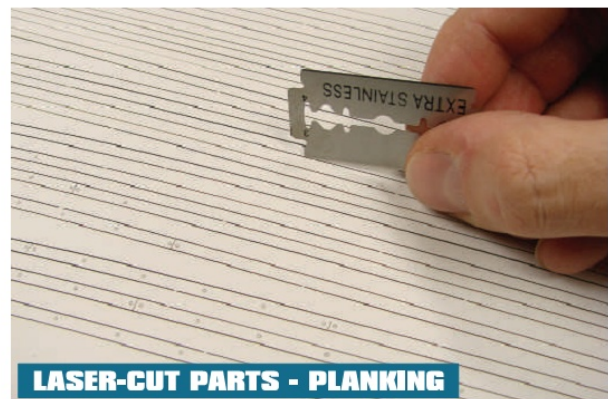

Es ist unser technologisch fortgeschrittenstes Produkt. In der Box finden Sie alles, was zum Bau des Segelschiff-Modells unentbehrlich ist. Alle Elemente wurden mit dem Laserplotter geschnitten. Eine echte Überraschung in den Bausätzen ist die Außenschicht - voll profiliert, nach einer feinen Formung zum Ankleben fertig - die Idee von Krzysztof Kłyszynski. Es ist eine Lösung, die in den Sätzen zum Segelschiffbau zum ersten Mal angewandt wurde. Die nächste, absolut innovative Lösung sind Blöcke nach dem Projekt von Bartosz Kłyszynski. Dieses Projekt lässt alle im Falle von Schiffen angewandten Blockarten verwenden.

Jest to nasz najbardziej technologicznie zaawansowany produkt. W pudełku znajdziecie wszystko co jest niezbędne do zbudowania modelu żaglowca. Wszystkie części są wycięte przy pomocy plotera laserowego. Prawdziwą niespodzianką w zestawach jest poszycie - w pełni i całkowicie wyprofilowane, gotowe do przyklejenia po delikatnym uformowaniu - pomysłu Krzysztofa Kłyszynskiego. Jest to rozwiązanie zastosowane po raz pierwszy w zestawach do budowy żaglowców. Kolejnym absolutnie nowatorskim rozwiązaniem, są bloczki według projektu Bartosza Kłyszynskiego. Projekt ten pozwala na zastosowanie wszystkich rodzajów bloczków używanych na okrętach.
